

FOR IMMEDIATE RELEASE

MEDIA LAB HOSTS GROUNDBREAKING CONFERENCE IN DENTAL SURGERY

Milan, Italy, 4 February 2019

Media Lab S.p.A. (“Media Lab”, “the Company”) – Euronext Access Symbol: MLLAB – ISIN: IT0005324105 – announced today that it has hosted the **2nd International Congress for Dental Guided Surgery**. The event took place on February 23 and 24 in Florence, Italy and was attended by a record number of over 300 dentists, dental surgeons and 30 industry partners from countries throughout Europe.

For the first time in its history, Media Lab presented unique new groundbreaking solutions for advanced guided dental surgery. The Company is in the process of rolling out the latest, most sophisticated version of its software that allows the user to plan, design and print a surgical guide with unprecedented detail and accuracy.

Media Lab CEO Dr. Massimo Ivani commented, “We are very pleased to have had such enthusiastic record attendance at our second annual congress. The new version of the product was received with great enthusiasm by the dental community and we are confident that this will lead to increased recognition and product sales”.
